

iSOQI Bed INTELLIGENCE

Smarten Up For Home Healthcare!

Combines the Wi-Fi, Bluetooth, and more with a unique iSOQI Bed App.

First, we upgrade the SOQI Bed by installing a “**smart brain**” to it. There is a new Central Control Unit with built-in Bluetooth and operational App on the SOQI Bed which interacts with your smart phone or tablet PC and allows “**one click operation**”.

7 Presets -

There are 7 preset modes (including a manual mode) available to satisfy your need in health.

Custom mode -

In addition, the new Bluetooth-ready iSOQI EMD is also now available for purchase (sold separately). The new iSOQI EMD will provide the energy test reading reports, analysis and recommendations (with custom mode #). You can later type the custom mode # to your iSOQI Bed App and enjoy the SOQI Bed in home with programs individually customized just for you.
